

EQUA Academy's

1st Simulation Summit

for both students and professional building modelers

27th September - 2nd October 2015

Rugghubel, 2290 m above sea level
Engelberg, Central Switzerland

EQUA.

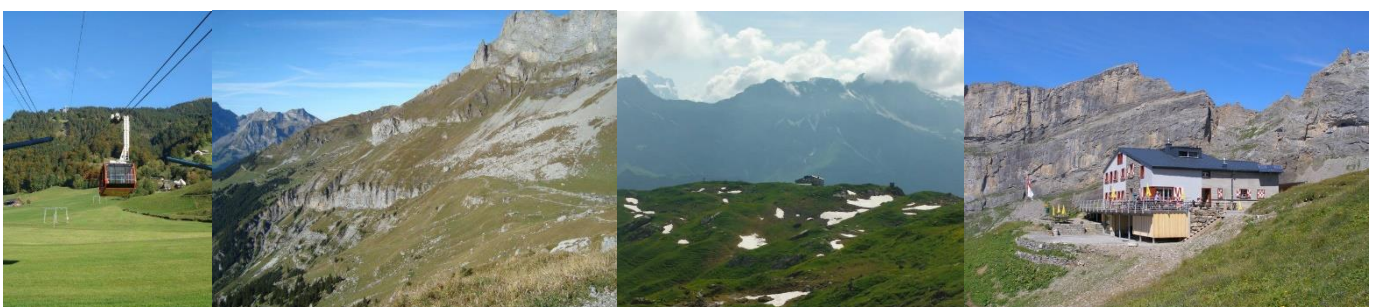

EQUA Academy's

Do you want to become a professional and advanced building modeler? Then EQUA Academy's Simulation Summit is what you need. We meet in an undisturbed environment to learn more about indoor climate and energy, and to learn how to model advanced issues. From students to professionals - from peers to peers - from IDA ICE users to experts.

- Lectures will be provided
- Hands-on sessions will be held
- Exercises will be done in groups
- Tips and tricks to solve your own problems will be offered

Agenda

27th September	12:53	Train arrival from Lucerne
	13:00	We meet at Engelberg train station transfer – cable car – 2.5 hours hiking
	17:30	Arrival at our hut. Welcome drink Dinner 1 st session
	<hr/>	
28th Sep – 1st Oct	08:00	Breakfast
	09:00	Morning session
	12:30	Lunch Hiking, climbing, mountain exploring in the afternoon
	18:00	Dinner
	19:30	Evening session
<hr/>		
2nd October	08:00	Breakfast
	09:00	Morning session
	12:30	Farewell lunch Hiking down to Engelberg
	17:00	Arrival at Engelberg train station. End of the summit
	17:01	Train departure for Lucerne

1st Simulation Summit

Combine work and exciting adventures in the beautiful world of the Swiss Alps! You are of course welcome to stay indoors with your simulation challenges the whole day long. However, an active break will clear your mind and bring you closer to enlightenment. You have the option to:

- hike
- construct an outdoor tent sauna (and why not model it?)
- watch marmots, birds and/or alpine deer
- climb
- kneipp in a mountain lake

What you need to bring

- Some first experience of IDA ICE
 - Either IDA ICE advanced level / university course completed
 - or having worked independently on several building models
- Course equipment
 - Your laptop with Swiss or European power plug
 - Bring all necessary data, as there is a very limited internet access in the hut.
- Mountain equipment
 - Good shoes and clothing for walking in all weather conditions (rain, fog, snowstorm, bright sunshine) and temperatures (0 - 20 °C).
 - For the hut: Your own bed linen or silk sleeping bag, as well as towel.
 - Everything packed in a comfortable backpack (no wheels!)
 - In case you own: Climbing harness and helmet
 - Some pocket money for the hut bar

Costs

The following costs include full accommodation (5 nights), food, cable car and course fee:

- Full time students: EUR 700.00
- Others: EUR 1 500.00

Place

Engelberg is situated in central Switzerland, within reach by car or train from Lucerne. We will meet at Engelberg train station and get a transfer to the starting point of our hike.

>> www.rugghubel.ch

Registration

Send the registration form before 1st August 2015 to:

EQUA Solutions AG, info@equa.ch, Untermüli 3, 6300 Zug, SCHWEIZ

or using the online form on www.equa.ch

Note: The number of attendants is limited. The simulation summit will only take place with enough registrations. We will decide whether to run the course or not in the beginning of August. Invoices will be sent at that date to all registered persons. The registration is accepted only after payment of the course costs and cancellations will not be accepted, unless there is a waiting list.
